

To Whom It May Concern

Moving Made Easy lives up to its name!

It all started for me when I received a flyer in my letterbox, advertising in a modest, but effective way how this company could help me sort out my clutter, and somehow assist me to shift my household contents to a retirement village in Warkworth.

The flyer came at a fortuitous time as I had just sold my house, and was worrying how I'd sort out and pack up my belongings. So I made contact with Brynyce whom I invited to come, and discuss my needs. I took an instant liking to this very sincere, practical and gracious lady. A quotation was made the next day, and I quickly accepted.

From the beginning I knew I had made the right decision, And that everything would happen. It did! Everything was done in a non-stressful way. Hospice and other charities became quietly involved, and the process ran smoothly.

Everything recycled from packing boxes to the actual packing paper. Everyone involved was caring and discreet. Every box was packed carefully and methodically. They were numbered, and an inventory made. I found this particularly useful at my new home. The moving company engaged, arrived at the appointed time and with the utmost care transported my effects in a gleaming, spotless van to Warkworth, where everything was unloaded quickly and efficiently. Meanwhile, Brynyce and her team were cleaning my house, and what a first class job they made of it! I went down to Auckland to hand over the property and was very proud of my meticulously cleaned house.

Brynyce will always be a friend. She has a wicked sense of humour, and nothing seems a bother. She is someone who notices the small things as well as the obvious ones.

I would certainly employ Moving Made Easy again, and have already recommended this company to several friends.
