MOVING MADE EASY

TESTIONIAL

In December 2016, my mother passed away.

Her Retirement Village in Warkworth gave me a week or so to remove her entire contents from her Villa. It was a daunting thought so soon after her death.

Two years before, my mother had moved from Milford in Auckland to Warkworth and had employed the services of Brynyce Owen from Moving Made Easy. I remember how thrilled she was with the whole process and the care that had gone into packing her items, furniture and artwork and how easy they had made the entire process for my dear old Mum.

I was reading my Mum's diary the night I got her eviction notice and a single piece of paper fell onto the floor. The piece of paper had one name and one phone number – Brynyce. I rang Brynyce immediately and she remembered my Mum well and told me it would be a privilege to pack up her Unit and move it to my Garage for storage. I met with Brynyce, who is the most warm and caring woman who knows exactly what is required with the minimum of fuss. She proceeded to clear and clean my mothers entire Unit. Some of the items I did not wish to take, she organized them to go to the local Hospice and City Mission.

Within a week, the entire contents arrived by truck at my house with the most wonderful inventory of the clearly labeled boxes. I can find anything I want. Every box is extremely well packed and labeled. The art work has been beautifully packaged in a form of bubble wrap.

I cannot speak highly enough of this company for their most professional and caring manner in which they packed and removed all items from my mothers house. I would recommend them to anyone who needs efficient, fast, effective packing with a very caring and kind company.

I am happy to be contacted at any time.

Kindest Regards

Nikki
